Domain Values & Define Remarks

2024-04-21

Domain Values

Menu: Admin → Domain Values

Domain Values are sets of lists mainly used by the system for building pick-lists for other screens.

Shown below is the Domain "Seed Classes". The values in the list are the Classes you can choose from when entering a sample.

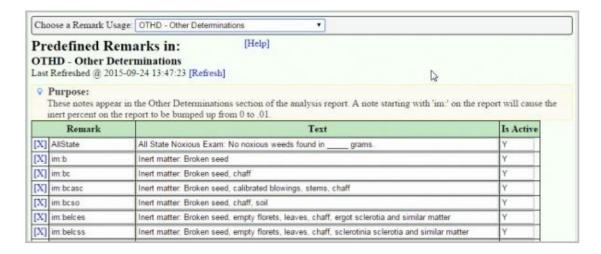

Define Remarks

Menu: Admin → Sample Remarks

Use this screen to set up predefined remarks for a particular remark usage. Using the abbreviation, these remarks can easily be added to a sample or field.

Shown below are some predefined remarks for Other Determinations.

Choose a Remark Usage: OTHD - Other Determinations ▼

Predefined Remarks in: [Help]
OTHD - Other Determinations
Last Refreshed @ 2015-09-24 13:47:23 [Refresh]

📍 **Purpose:**
These notes appear in the Other Determinations section of the analysis report. A note starting with 'im:' on the report will cause the inert percent on the report to be bumped up from 0 to .01.

	Remark	Text	Is Active
[X]	AllState	All State Noxious Exam: No noxious weeds found in _____ grams.	Y
[X]	im:b	Inert matter: Broken seed	Y
[X]	im:bc	Inert matter: Broken seed, chaff	Y
[X]	im:bcasc	Inert matter: Broken seed, calibrated blowings, stems, chaff	Y
[X]	im:bcso	Inert matter: Broken seed, chaff, soil	Y
[X]	im:belces	Inert matter: Broken seed, empty florets, leaves, chaff, ergot sclerotia and similar matter	Y
[X]	im:belcss	Inert matter: Broken seed, empty florets, leaves, chaff, sclerotinia sclerotia and similar matter	Y

Remark Usages

There are a number of different remark usages, some appear on reports or lab cards, others are just for internal use, only visible by the Lab (or Crop Improvement Agency).

USAGE	Description
These Remarks all appear on the Lab Report	
SAMR	Sample Remarks - Appears in the Remarks box
ANAS	Analysis Status, Appears in the Status box
OTHD	Appears in Other Determinations box
OTHC	Appears in Other Crops box
OTHW	Appears in Weed Seeds box
NOXW	Appears in Noxious Weeds box
REPH	Report Handling, appears below the address
SENI	Sender's Information - Appears at top of lab report with other senders info
SENR	Sender's Remarks - Alternative to SENI, appears below the SAMR Remarks
These remarks are for internal use and do not appear on any report	
GERN	Germination Note
OFFN	Office Note
PURN	Purity Note
REGN	Regulatory Notes
SENN	Sender's Note

Other Special Remarks	
LABC	Lab Card Remarks - appears on Lab Card (if enabled)
OECD	Remarks only for OECD Report
