<input type="checkbox"/>	Lab #	Associate	Crop(Variety)	Class	Received	Printed
Template: Standard <input type="button" value="Print Selected"/> (opens in new window)						
<input checked="" type="checkbox"/>	15-5257	(3335)	Chickpea, spring (Nash)	Service	04/11/16	
<input checked="" type="checkbox"/>	15-5313	(3763)	Alfalfa (Masterpiece 2)	Service	04/14/16	04/14/16

The lab card is designed to print the Sample Information in the header section on a sheet with a pre-printed lab card.

Tests:Germination, Purity, Seed count AOSA - [PG:500] [NG:500] [MOIST:H2O] [SUB:T,S,TC] [PLS?N] [GG:200] [T°:25] [PRE:0] [FIRST:5] [FINAL:8] Hard seeds: see sec. 4.2d & 4.9k(6) 3100 - _____, MN 56271 Phone: 3: _____ 1, Fax: 3: _____ 2	15-11411 Rcvd: 04/22/16 Class: Foundation Soybeans, Vital Lot# 15-FS1548T
---	--

If you do not wish to preprint your lab cards PH does support using an image to be used as the Lab card body. The best way to create the image is to use a Word Processor to create the columns & rows for counts& weights, then Print & scan the Lab card into an image.

Tests:Germination
 AOSA - 4/100 RT 20-30 Thiram; 1ST 10, FC 14; P 15; N 150
