

## Field Inspection Templates

2024-06-30

This documentation is for a customized feature in Pure Harvest, and is not enabled by default. This was customized for MCIA in 2018. Copyright by Elmwood Solutions Inc.

### Overview

This screen is used to merge template documents with field data for batch printing.

1) Field Inspections

### Field Inspection Templates:

To Generate a merged Document, click the Template name in the list below.  
To Upload a new version of an existing template [\[Click Here\]](#)

#### General Templates

- [Field Additional Info Letter](#)  
Request for Additional Info regarding Field Application

#### Inspection Report Templates

- [Annual Crops \(.docx\)](#)  
Field Inspection Report - Annual Crops
- [Corn \(.docx\)](#)  
Field Inspection Report - Corn
- [Field Beans \(.docx\)](#)  
Field Inspection Report - Field Beans
- [Hemp \(.docx\)](#)  
Field Inspection Report - Hemp
- [Inspection / Reinspection Certificate \(.docx\)](#)  
Inspection Reinspection Certificate
- [Kernza \(.docx\)](#)

Click the name of a template to open the parameter form. Some form fields will be pre-filled, others can be optionally included for further restrictions.

All fields matching the parameters will be merged with the template document. Most templates create a multi-paged word document, one page per inspection needed, unless otherwise noted.

To replace an existing template with an updated version use the Upload Template popup and select the template you wish to update.
