

Supervisors

2024-06-30

Menu: Fields → Supervisors

Use this screen to define Supervisors for Field areas. Associates can be designated as Supervisors for different Areas. Each County is defined with an Area #, and each Area # belongs to one Supervisor.

This is used when creating the Supervisor Field Listing report. The report can be created for each Supervisor, and it will list all this year’s fields which are located in the counties that belong to that Supervisor.
